Amadeus

Amadeus

In a few words

One of the world's leading software companies

646+ million Total bookings processed in 2019 using the Amadeus distribution platform

1.9+ billion Passengers boarded in 2019 with Amadeus and Navitaire solutions

9th consecutive year included in the Dow Jones Sustainability Index (DJSI). Recognized as world leader in the Software & Services industry sector in the DJSI in 2020

Our commitment to innovation

€8.3 billion invested in R&D since 2004

50+ technology sites and 9800+ people across the world

In 2021 we processed **over 75,000 tps (>1 Mio tps at peak time)** in our main data center

Scalable technology built on open systems and a service-oriented architecture

Amadeus

Our customers

travel agencies,
online travel agencies,
tour operators and
corporations
worldwide

474 airlines

132 airport
operators

133 ground
handlers

1M+ hotel
properties

90 rail
operators

69 mobility
providers

21 insurance
provider
groups

29 cruise
and
ferry lines

Amadeus

Our technology journey

2000
16 TPF Mainframes

2001
First OBE (open system)
Few tps
HP-UX Superdome

2009
255 App Servers
27 ktps
Linux
Pizza box

2019
2779 App Servers
1003 ktps

Amadeus

Why the cloud?

Data sovereignty

Improving Latency and Response Time

Energy Efficiency (e.g. PUE)

Keeping an Edge

Proximity

Better performance, lower latency

Flexibility

For unplanned traffic peaks

Security

Higher standards

Innovation

Continuous integration & development

Faster time-to-market

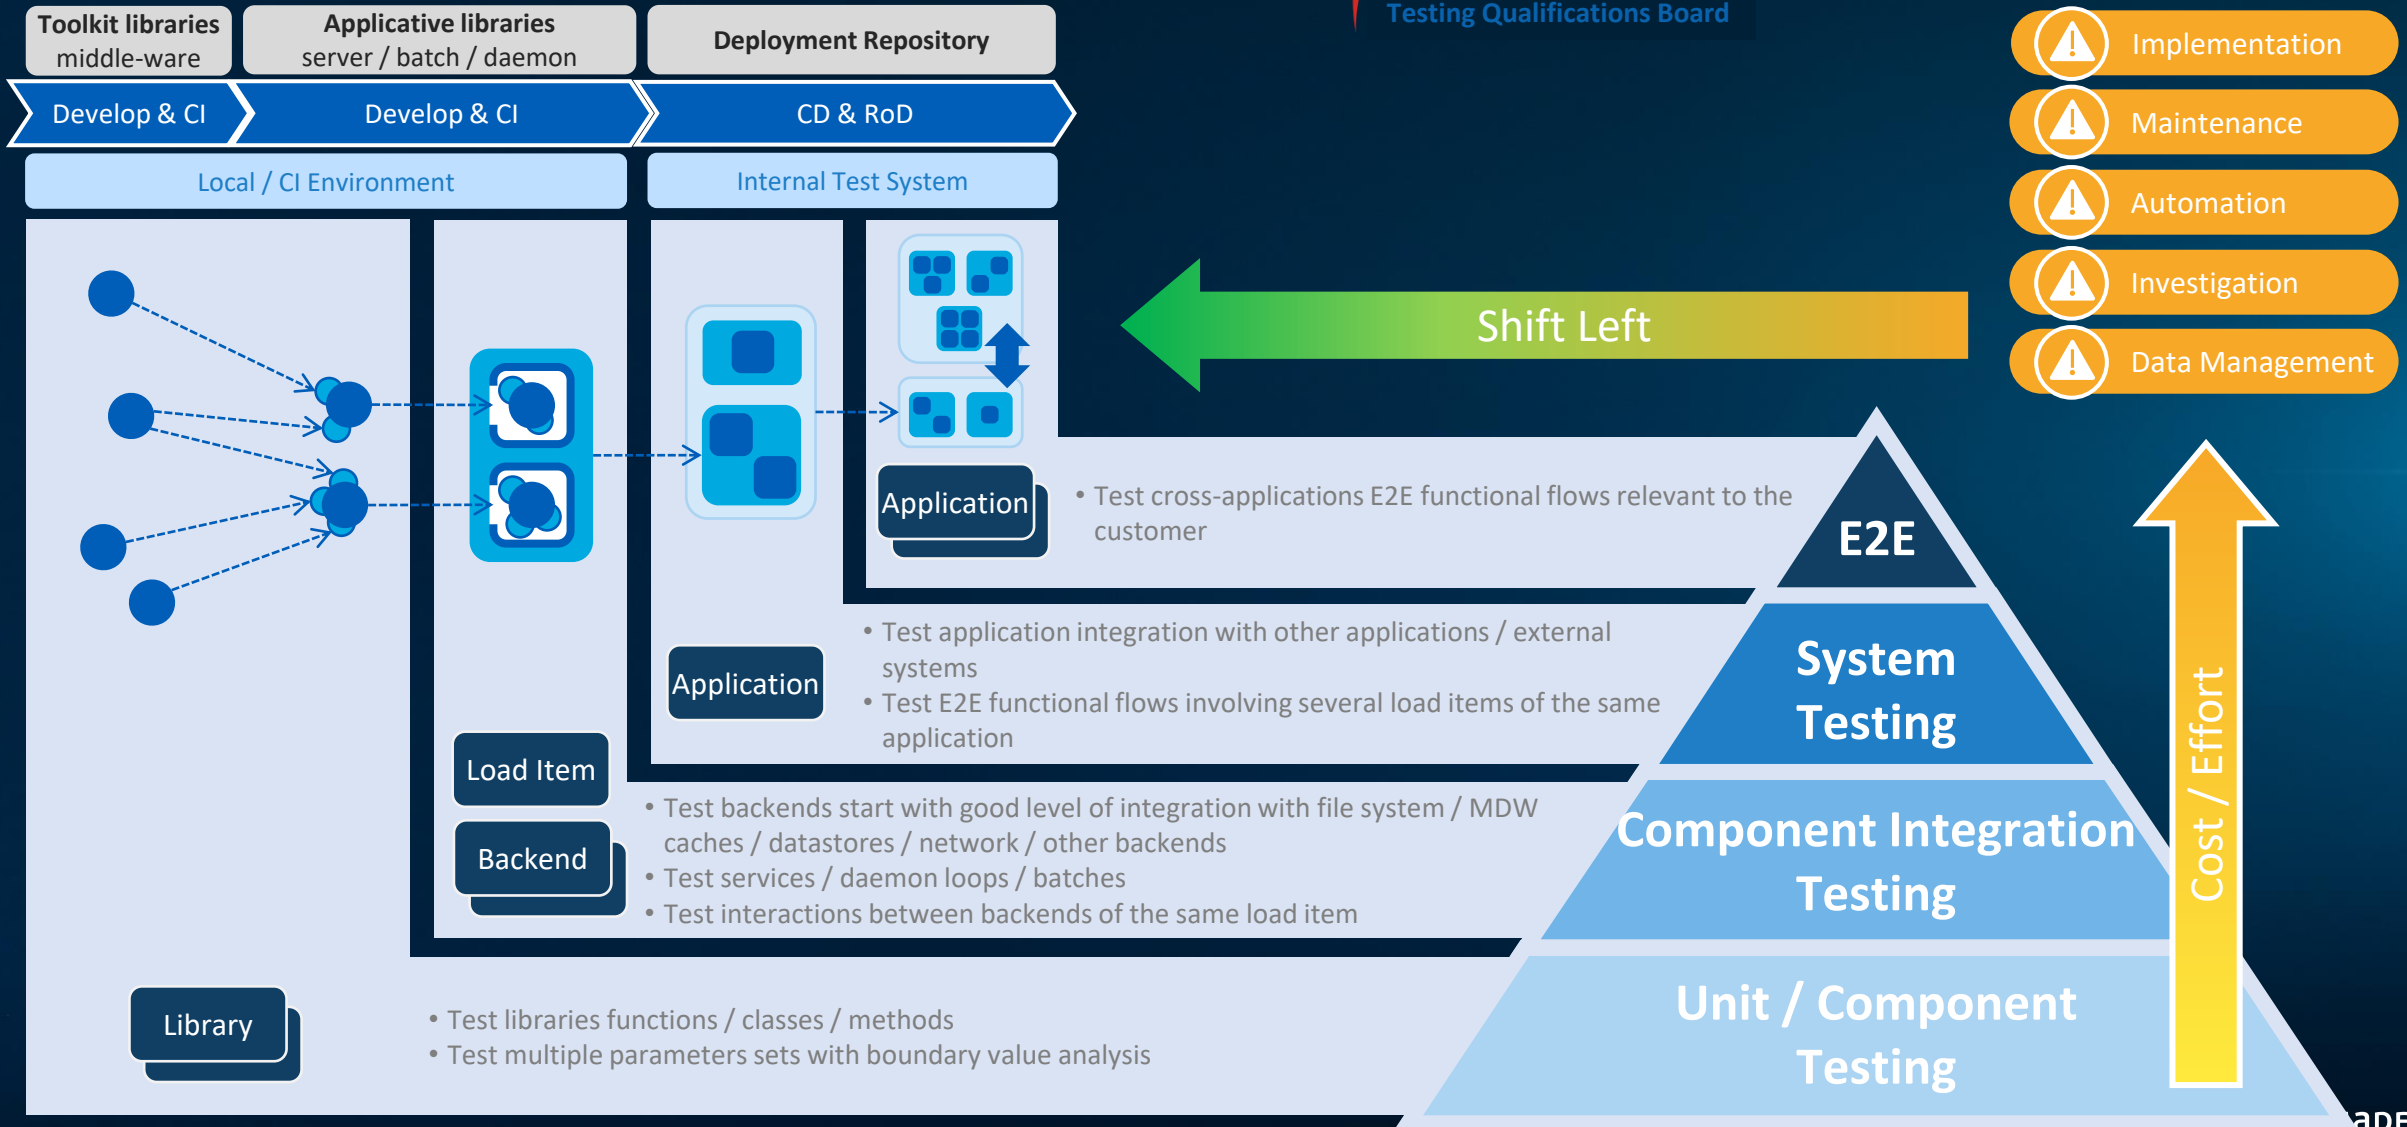

Respond & innovate quicker

Migration Test Strategy

Tailored Testing – Risk Based Approach

Migration Test Strategy

Tailored Testing – Risk Based Approach

Example 1:

- No DB
- Use of credit cards
- Not latency sensitive

Migration Test Strategy

Tailored Testing – Risk Based Approach

Tools & Methodologies

Replication tests

E2E tests

E2E tests

Delivery strategy

Perf tests

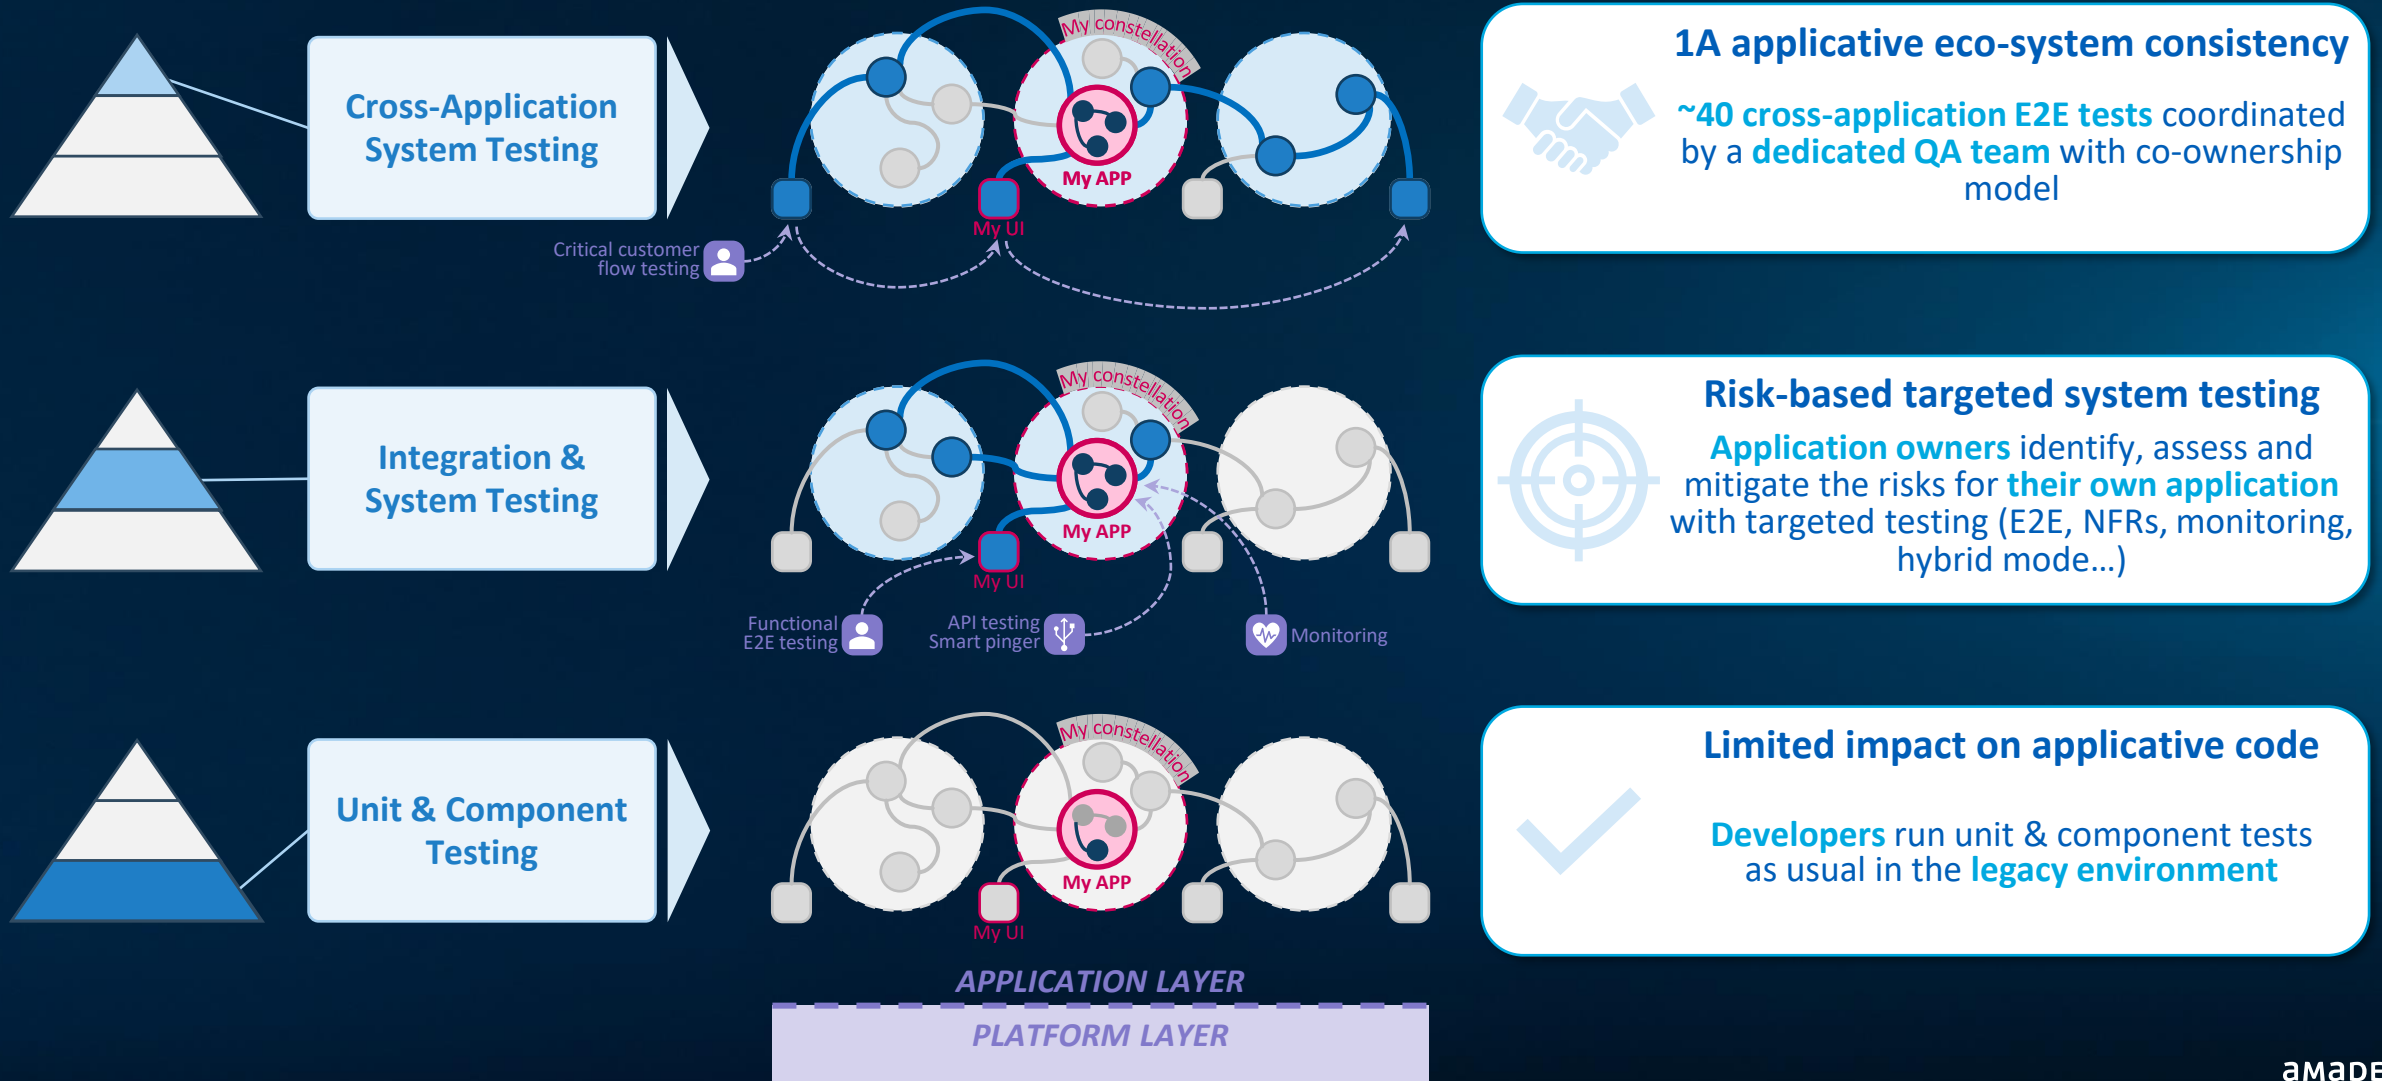

Example 2:

- DB custom replication
- Low response time
- Resilient by design
